

Why You Should Talk With us About Life Insurance

Life insurance comes in a wide range of product types such as term insurance, universal life, variable life, and indexed universal life. We can help you better understand any life insurance policies that you already own (there is no charge for this service). We can also help you determine if you need additional insurance, and the amount and type of insurance you should buy.

There are many reasons why people buy life insurance:

- to protect the family's finances if the breadwinner dies
- to pay estate taxes
- to fund a favorite charity after your death

Businesses also buy life insurance to:

- fund a buy/sell agreement that is triggered by a partner's death
- protect the business against the impact of a key employee's death
- fund various types of incentive benefits for key employees and executives.

Buying the wrong life insurance policy can be a very costly mistake. Let us guide you through the process so we can help you feel good about your life insurance program.
